

## **INDRA PROVIDES ITS AIR TRAFFIC MANAGEMENT TECHNOLOGY TO HINDUSTAN AERONAUTICS LIMITED, ONE OF THE MAIN AIRSPACE COMPANIES IN ASIA**

- **Indra will equip HAL Airport, Bengaluru, with the most advanced technology to strengthen safety and efficiency in air traffic management**
- **Indra is the main supplier of air traffic management systems in India: it has equipped more than 38 airports, one of India main air traffic control center, and has deployed radar systems that cover over 80% of India Airspace**

**Madrid, 19 March 2019.-** India state owned Hindustan Aeronautics Limited (HAL), one of the main airspace companies in Asia, has relied on Indra to equip HAL Airport, Bengaluru with Indra Air Traffic Control technology to strengthen safety of air operations.

Indra will provide HAL air traffic control centre with last-generation en-route, approach and tower control positions that will enable and boost air traffic management efficiency.

The contract also includes provision of a simulator to reinforce controllers' training, voice recorder, surveillance ADS-B, and Aeronautical Information System AIS/ASBS and D-ATIS.

The scope of the contract includes customer personnel training, warranty and 4-year maintenance. All Indra systems exceed the most demanding international standards.

### **Leading ATM tech provider in India**

Indra is the leading Air Traffic Management supplier in India. Indra air traffic control system is in operation in 38 airports along the country, also supplying one of the main air traffic control centres in India, Kolkata ATCC, key centre for the routes towards southwest Asia. Indra has also deployed a network of radars that cover 80% of India Airspace.

Indra holds a predominant position in a market with an increasingly exponential growth. In accordance with IATA, in 2024, India air transport sector will become the third in the world, behind EEUU and China only.

Last year, Indian Government announced that 60.000 Million will be allocated to build additional 100 airports during the next 10 or 15 years. All this consolidates India position as one of the most attractive and dynamic markets in the world for an Indra as technological supplier, considering India's strong need to reinforce its air traffic management infrastructure.

### **About Indra**
